

## Sustainable Buildings: Internship Opportunity with Michigan EIBC and IEI

The Michigan Energy Innovation Business Council ([Michigan EIBC](#)) and Institute for Energy Innovation ([IEI](#)) seeks a paid graduate-level intern to support policy research on building sustainability, electrification, and energy efficiency. The ideal candidate will have excellent research and writing skills, time management and organizational skills, be attentive to details, be self-motivated with the ability to take initiative with minimal supervision, and be eager to learn and excel in a small, collaborative team environment.

The selected candidate will be expected to dedicate approximately 10-15 hours per week to this work starting on or around January 6, 2025, with increased hours (up to full time) expected during summer. The internship will be 12 months in length. Attendance is expected at scheduled virtual meetings during normal business hours, but can be flexible depending on the selected candidate's schedule and other work can occur when mutually convenient. The selected intern will be paid a stipend of \$800 per month if working 10-15 hours per week and \$3,200 per month if working 40 hours per week.

### Anticipated Tasks: Research and Writing

- Conduct research on policies related to building electrification and energy efficiency in Michigan and other states
- Write portions of a Building Electrification Roadmap for Michigan
- Support modeling work conducted by outside consultants related to greenhouse gas emissions and policy simulations

### Anticipated Tasks: Member Engagement

- Participate in meetings with Michigan EIBC members and take notes/compile summaries
- Support policy staff to gather information, ideas, and best practices from Michigan EIBC members

**To apply, please complete [this form](#) including submission of a resume and cover letter. Applications will be received through 5:00pm on November 25, 2024. Please reach out to Jamie Scripps ([jamie@mieibc.org](mailto:jamie@mieibc.org)) with any questions.**

### Organizations

Collectively, Michigan EIBC and IEI are the voice of the advanced energy industry in Michigan, representing more than 170 companies to policy makers, convening thought leaders and experts, crafting legislation and regulations, educating the public, and providing networking opportunities. The organization's mission is to grow Michigan's advanced energy economy by fostering opportunities for innovation and business growth and offering a unified voice in creating a business-friendly environment for the advanced energy industry in Michigan. Michigan EIBC is governed by a Board of industry leaders.

IEI is a Michigan-based non-profit that works to promote greater public understanding of advanced energy and its economic potential for Michigan, and to inform the policy and public discussion on Michigan's energy challenges and opportunities. IEI is governed by a Board of energy leaders with deep connections to industry, research, finance, and policy.
